The 5th annual City of New Orleans and Louisiana Mosquito Control Association Mosquito Academy will be held April 4-6, 2017. This 3 day Academy will offer comprehensive and in-depth information on all areas of mosquito biology and control, with an added emphasis placed on methods for surveillance and control of the vectors of Zika virus. Classroom learning is enforced through hands-on mosquito identification and field training. The Academy will be beneficial for experienced professionals as well as newcomers to the field. In order to provide individual attention to each attendee, class size is limited. This Academy will include presentations by mosquito control professionals and university experts.

Academy Topics Include:

- Mosquito biology
- Identification
- Mosquito ecology
- Arboviruses; Zika virus
- Emerging diseases
- Surveillance
- Integrated pest management
- Biological control
- Public education
- Adult & Larval control
- Resistance monitoring
- Rules and regulations
- Ethics and professionalism
- Outbreak response planning
- New technologies
